

Seminar Series on Genome Dynamics

IGH - 1st floor seminar room at 11:30

December 2, 2011

Gene punctuation in eukaryotes : Gene loops,
R-loops and non coding RNA

Nicolas Proudfoot - Oxford University, UK

Contact : Rosemary Kiernan

December 9, 2011

RNAi and reverse transcription control viral
persistence in *Drosophila*

Carla Saleh - Institut Pasteur, Paris, France

Contact : Séverine Chambeyron

January 6, 2012

The fates of oocyte-inherited methylation

Deborah Bourc'his - Institut Curie, Paris, France

Contact : Nicolas Gilbert

January 27, 2012

Duplicating the mammalian epigenome

Cristina Cardoso - Technische Universität Darmstadt, Germany

Contact : Marcel Méchali

February 10, 2012

Genome Stability: from worms to human disease

Simon Boulton - Clare Hall, Cancer research UK

Contact : Bernard de Massy

March 2, 2012

Sequence grammar of the epigenome

Dirk Schübeler - University of Basel, Switzerland

Contact : Giacomo Cavalli

March 9, 2012

Paternal chromatin assembly in the *Drosophila* zygote

*Benjamin Loppin - Centre de Génétique et de Physiologie Moléculaire et
Cellulaire - Villeurbanne*

Contact : Ounissa Ait Ahmed

December 2011 - March 2012

Department « Genome Dynamics » Institute of Human Genetics

141 Rue de la Cardonille, 34396 Montpellier cedex 5 - France - Phone: +33(0)4 34 35 99 04
