

Seminar Series on Genome Dynamics

Amphithéâtre GENOPOLYS - 11:30 am

November 25, 2016

Klaus Forsterman - LMU, Gene Center Munich, Genzentrum & Dept. Biochemie, Munich, Germany

Splicing-dependent mRNA quality control in Drosophila
contact : Séverine Chambeyron / Salle Conférences IGH

December 16, 2016

Etienne Danchin - Evolution and biological diversity laboratory
Ecole Nationale de Formation Agronomique - Toulouse

New vision of heredity to promote the Inclusive Evolutionary Synthesis

contact : Giacomo Cavalli

January 27, 2017

Greg Hannon - Cancer Research Cambridge Institute, UK

A small RNA-based innate immune system

contact : Séverine Chambeyron

February 3, 2017

Javier F. Caceres - MRC Human Genetics Unit - Institute of Genetics and Molecular Medicine (IGMM) - University of Edinburgh, UK

Biogenesis and turnover of small RNAs in health and disease

contact : Rosemary Kiernan

March 31, 2017

Paola Scaffidi - The Francis Crick Institute, London, UK

Epigenetics and functional intratumour heterogeneity

contact : Reini Fernandez De Luco

April 14, 2017

James Berger - Johns Hopkins School of Medicine, Baltimore, USA

A 'simplified' topoisomerase related to the meiotic DNA break machinery gets complicated

contact : Bernard de Massy

June 16, 2017

Luciano Di Croce - CRG Centre for Genomic Regulation, Barcelona, Spain

Chromatin regulators in cell differentiation and cancer

contact : Giacomo Cavalli
