

Seminar Series on Genome Dynamics

Amphithéâtre GENOPOLYS - 11:30 am

October 27, 2017

Ben LEHNER - Center for Genomic Regulation, Barcelona, Spain

Trans-generational transmission of environmental information

contact : Marcel Méchali

February 9, 2018

Déborah BOURC'HIS - Institut Curie, Unité de Génétique et Biologie du Développement CNRS UMR 3215/INSERM U934, Paris, France

The ABC of DNA methylation in the mammalian male germline

contact : Bernard de Massy

March 2, 2018

Juanma VAQUERIZAS - Regulatory Genomics, Max Planck Institute for Molecular Biomedicine, Germany

Chromatin architecture in development and Disease

contact : Reini de Luco

March 16, 2018

Robin ALLSHIRE - University of Edinburgh Wellcome Centre for Cell Biology, UK

Probing Establishment and Maintenance of Specialised Chromatin Domains

contact : Séverine Chambeyron

March 30, 2018

Harnit S. MALIK - Fred Hutchinson Cancer Research, Seattle, USA

Genetic conflicts shape meiosis, centromeres and the origin of species

contact : Bernard de Massy

May 25, 2018

Luciano di CROCE - CRG Centre for Genomic Regulation, Barcelona, Spain

The biological role of Polycomb and MLL complexes in stem cells and cancer

contact : Giacomo Cavalli
